PART 328—MINIMUM PRICE SCHEDULE
[Docket No. A-1392]

MINIMUM PRICE SCHEDULE,
DISTRICT No. 8
ATTENDANT OF BELIEF ORDER
1320

AMENDMENT OF RELLIER ORDER
Order amending order granting temporary and conditionally final relief in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8.

No. 8. An Order issued May 6, 1942, 7 F.R. 3872, granted temporary relief and conditionally provided for final relief in the above-entitled matter by establishing price classifications and minimum prices for certain mines in District No. 8. Subsequently, the original petitioner filed a motion to modify the Order so that the relief granted therein to the New Cinderella Mine (Mine Index No. 5418) of

the Cinderella Coal Corporation, and to the Consolidation No. 207 Mine (Mine Index No. 5445) of the Consolidation Coal Company, would not become final until October 1, 1942.

It appears that these mines have not yet entered into commercial production; that petitioner is not certain as to what price classifications are proper for the coals to be produced. Petitioner has alleged that by October 1, 1942, the mines will have entered into regular commercial production and that any doubts as to the proper classifications of these mines will thus be resolved before that date.

It appears that a reasonable showing of necessity has been made for the granting of this motion, and that no petitions of intervention have been filed with the Division in the above-entitled matter.

It is ordered, That the relief granted in the Order of May 6, 1942, in the above-entitled matter, shall not become final until October 1, 1942, as to Mine Index Nos. 5418 and 5445.

It is further ordered, That pleadings in opposition to this Order may be filed with the Division within forty-five (45) days from its date, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That in all other respects the Order of May 6, 1942, in the above-entitled matter be and the same shall remain in full force and effect.

Dated: June 24, 1942.

Licensing agents may charge a fee of 25 cents for each license issued by them, whether an original or a duplicate license or a certified copy. They may also charge 25 cents for each application filed with them to be forwarded to the Director. No fees are required to accompany applications filed with the Director, nor are any fees required for the issuance of a license or a copy of a license by the Director.

Section 301.20 (d) is amended to read as follows:

(d) *Licensees' records and foremen's reports.* Every licensed owner or operator and every foreman shall keep the records required by § 301.14 (d). Separate records must be kept for each magazine. Such written reports of the foreman shall consist of one separate report for each day in which explosives or ingredients are received, issued, sold, or otherwise handled by him, and one report for each month in which explosives are in his possession or under his control, whether or not any were received, sold, issued, or used during the month reported for. The reports for each day must be made at the end of the day reported for, or on the workday fol-

If the foreman has possession or control of a magazine, his monthly report must contain a statement that he has entered and inspected the magazine pursuant to the provisions of paragraph (c) hereof, and that the magazine and its contents were found to be intact and in good order and no explosives or ingredients improperly missing or removed, or otherwise as the case may be. Chapter IX—War Production Board
Subchapter B—Division of Industry Operations

PART 1010—SUSPENSION ORDERS

[Suspension Order S-58]

OSCAR W. HEDSTROM CORP.

Oscar W. Hedstrom Corporation, of Chicago, Illinois, is a manufacturer of wood and metal patterns and models and nonferrous alloy castings. It was prohibited under General Preference Order M-1 until February 17, 1942, and since then under Supplementary Order M-1-f, from making deliveries of castings or products of aluminum not approved on Form PD-26A.

During the month of February 1942, Oscar W. Hedstrom Corporation made deliveries of aluminum castings which had been specifically disapproved when submitted for approval on Form PD-26A. In addition, it made deliveries of aluminum castings without having submitted them for the approval of the Director of Industry Operations on Form PD-26A. The Company had previously made shipments to six of the same companies without official approval, and the Compliance Branch had specifically admonished the Company against repetition of the violation. Consequently, these deliveries were made with full knowledge that they were prohibited by orders of the Director of Industry Operations.

In these violations of General Preference Order M-1 and Supplementary Order M-1-f, Oscar W. Hedstrom Corporation impeded the war program by diverting scarce materials to purposes unauthorized by the Director of Industry Operations.

It is hereby ordered:

§ 1010.58 *Suspension Order S-58.* (a) Deliveries of material or equipment to Oscar W. Hedstrom Corporation, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be applied or assigned to such deliveries by any Preference Rating Certificate, Preference Rating Order, General Preference Order, or any other order or regulation of the Director of Industry Operations, except upon specific authorization of the Director of Industry Operations.

(b) No allocation to Oscar W. Hedstrom Corporation, its successors and assigns, shall be made of any material of which the supply or distribution is governed by any order of the Director of Industry Operations, except upon specific authorization of the Director of Industry Operations.

(c) Oscar W. Hedstrom Corporation shall not deliver, process or accept delivery of primary, secondary or scrap aluminum, or castings thereof, except upon specific authorization of the Director of Industry Operations.

(d) No person shall hereafter make delivery to or accept delivery from Oscar W. Hedstrom Corporation of primary, secondary or scrap aluminum or of castings thereof, except upon specific au-

thorization of the Director of Industry Operations.

(e) Nothing in this order relieves any person from compliance with the provisions of any conservation, limitation or other order or regulation of the Director of Industry Operations now or hereafter in force.

(f) This order shall take effect on June 26, 1942, and shall continue in effect until August 26, 1942. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. PART 1254—DENTAL EQUIPMENT AND SUPPLIES SIMPLIFICATION

[General Limitation Order L-139]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export of the materials entering into the production of dental equipment and supplies and in the facilities available for the production of dental equipment and supplies; and the following order and the schedules issued pursuant thereto are deemed necessary and appropriate in the public interest and to promote the war effort.

§ 1254.1 *General Limitation Order L-139—(a) Issuance of schedules of simplification of lines.* The Director of Industry Operations may from time to

time issue schedules establishing simplified practices with respect to the types, sizes, forms, specifications or other qualifications for dental equipment, supplies, instruments and materials, and other similar products. After the effective date of any such schedule no such materials or products shall be produced, fabricated or processed except such as conform to the issued schedule and except as specifically permitted by such schedule. Any schedule issued pursuant hereto may also contain any other restrictions concerning such materials and products that may be deemed necessary and appropriate, such as restrictions on the sale, purchase, transfer, delivery and/or uses thereof.

(b) *Appeals.* Any person affected by this order or any schedule issued pursuant hereto who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a serious problem of unemployment in the community, or that compliance with this order or such schedule would disrupt or impair a program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board, (Ref: L-139) setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(c) *Applicability of Priorities Regulation No. 1.* This order (and any schedule issued pursuant thereto) and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order (or such schedule) shall govern.

(d) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, or any schedule issued pursuant hereto, shall, unless otherwise directed, be addressed to: War Production Board, Health Supplies Branch, Washington, D. C., Ref.: L-139.

(e) *Violations.* Any person who wilfully violates any provision of this order or any schedule issued pursuant hereto, or who, in connection with this order or any such schedule, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719;

PART 1412—SOLVENTS

[Maximum Price Regulation 170]

ANTI-FREEZE

In the judgment of the Price Administrator, seasonal and other factors affecting the sale of anti-freeze by manufacturers and distributors thereof have resulted in the establishment, under the General Maximum Price Regulation,¹ of maximum prices for such sales which are not generally representative and which are not best calculated to assist in securing adequate distribution of such anti-freeze.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942. A statement of the considerations involved in the issuance of this Regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1² issued by the Office of Price Administration, Maximum Price Regulation No. 170 is hereby issued.

² 7 F.R. 971, 3663.

§ 1412.1 *Maximum prices for anti-freeze.* (a) On and after June 30, 1942, regardless of any contract, agreement, lease or other obligation, no person shall sell or deliver anti-freeze and no person shall buy or receive anti-freeze in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1412.13; and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of anti-freeze to a purchaser if prior to June 30, 1942, such anti-freeze had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

(b) Nothing in this Maximum Price Regulation No. 170, or in the General Maximum Price Regulation,¹ shall apply to sales or deliveries of anti-freeze other than those sales or deliveries for which maximum prices are established in Appendix A hereof (§ 1412.13), except as provided in § 1412.9.

(c) Nothing in this Maximum Price Regulation No. 170 shall apply to sales or deliveries of wood alcohol for which maximum prices are established by Revised Price Schedule No. 34³ or to sales or deliveries of ethyl alcohol for which maximum prices are established by Revised Price Schedule No. 28.⁴

§ 1412.2 *Less than maximum prices.* Lower prices than those set forth in Appendix A hereof (§ 1412.13) may be charged, demanded, paid or offered.

§ 1412.3 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 170 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to anti-freeze alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding or otherwise.

§ 1412.4 *Adjustable pricing.* Any person may offer or agree to adjust or fix prices to or at prices not in excess of the maximum prices in effect at the time of delivery. In an appropriate situation where a petition for amendment or for adjustment or exception requires extended consideration, the Administrator may, upon application, grant permission to agree to adjust prices upon deliveries made during the pendency of the petition in accordance with the disposition of the petition.

§ 1412.5 *Records and reports.* (a) On and after June 30, 1942, every person making purchases or sales of anti-freeze in the course of trade or business shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of every such purchase or sale except sales at retail, showing the date

thereof, the name and address of the buyer and of the seller, the price contracted for or received, and the quantity of such anti-freeze purchased or sold.

(b) Such persons shall submit such reports to the Office of Price Administration and keep such other records in addition to or in place of the records required in paragraph (a) of this section as the Office of Price Administration may, from time to time, require.

(c) Any seller who has customarily given a purchaser a sales slip, receipt or similar evidence of purchase shall continue to do so. Upon request from a purchaser any seller, regardless of previous custom, shall give the purchaser a receipt showing the date, the name and address of the seller, a description of the anti-freeze sold, and the price received for it.

(d) Every person selling Type P anti-freeze shall preserve all of his existing records relating to the price which he charged for Type P anti-freeze during that month of the six month period ending March 31, 1942, in which he delivered the largest amount of such anti-freeze.

§ 1412.6 Marking and posting—(a) By persons packaging anti-freeze. (1) On and after June 30, 1942, every person who packages anti-freeze in containers shall clearly and conspicuously mark on the outside of such containers the following information:

(i) The type of anti-freeze contained therein, that is, "Type N", "Type S", or "Type P", as the case may be.

(ii) The strength of the anti-freeze contained therein, that is, "standard" or "substandard", as the case may be.

(iii) The applicable maximum retail price as established by Appendix A hereof (§ 1412.13) for the anti-freeze contained therein. Such price shall be designated as follows: "O. P. A. Retail Ceiling Price \$____".

(2) Such information shall be printed in letters at least two inches high on containers of more than 5 gallons, and in letters at least as large as any other printed matter thereon on containers of 5 gallons or less.

(b) **By retailers.** (1) Every person selling anti-freeze at retail shall post the maximum price of each Type (N, S, or P), strength (standard or substandard), and brand of anti-freeze sold by him, in a manner plainly visible to and understandable by the purchasing public. The maximum price may be posted on the shelf, bin, or rack upon or in which the commodity is kept, or it may be posted at the place in the business establishment where the commodity is offered for sale, and shall be marked "Ceiling Price \$____".

(2) Every person selling anti-freeze at retail from containers of more than 5 gallons which do not have properly marked thereon the information required by paragraph (a) of this section shall mark such information on such containers in the form and manner prescribed in said paragraph.

§ 1412.7 Enforcement. (a) Persons violating any provision of this Maximum

Price Regulation No. 170 are subject to criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 170 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest District, State, Field, or Regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1412.8 Petitions for amendment. Persons seeking any modification of this Maximum Price Regulation No. 170 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1 issued by the Office of Price Administration.

§ 1412.9 Licensing; applicability of the registration and licensing provisions of the General Maximum Price Regulation. The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this Maximum Price Regulation No. 170 selling at wholesale or retail any anti-freeze covered by this Maximum Price Regulation No. 170. When used in this § 1412.9, the terms "selling at wholesale" and "selling at retail" have the definitions given to them by §§ 1499.20 (p) and 1499.20 (o), respectively, of the General Maximum Price Regulation.

§ 1412.10 Federal and state taxes. Any tax upon, or incident to, the sale, delivery, processing, or use of anti-freeze imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such anti-freeze and in preparing the records of such seller with respect thereto:

(a) **As to a tax in effect during any part of the six-month period ending March 31, 1942.** (1) If the seller paid such tax, or if the tax was paid by any prior vendor, irrespective of whether the amount thereof was separately stated and collected from the seller, but the seller did not customarily state and collect separately from the purchase price during any part of the six-month period ending March 31, 1942, the amount of the tax paid by him or tax reimbursement collected from him by his vendor, the seller may not collect such amount in addition to the maximum price, and in such case shall include such amount in determining the maximum price under this Maximum Price Regulation No. 170.

(2) In all other cases, if, at the time the seller determines his maximum price, the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does state it separately, the seller may collect, in addition to the maximum price,

the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased, and in such case the seller shall not include such amount in determining the maximum price under this Maximum Price Regulation No. 170.

(b) **As to a tax or increase in a tax which becomes effective after March 31, 1942.** If the statute or ordinance imposing such tax or increase does not prohibit the seller from stating and collecting the tax or increase separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax or increase actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased.

§ 1412.11 Applicability of General Maximum Price Regulation. Except as provided in § 1412.9 hereof, the provisions of this Maximum Price Regulation No. 170 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this Regulation.

§ 1412.12 Definitions. (a) When used in this Maximum Price Regulation No. 170, the term:

(1) "Person" means an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Anti-freeze" means any alcohol or alcohol formulation sold for use as a depressant of the freezing point of water.

(3) "Alcohol" means a monohydric or polyhydric aliphatic alcohol from the group consisting of methyl alcohol, ethyl alcohol, isopropyl alcohol, and ethylene glycol.

(4) "Standard anti-freeze" means any anti-freeze which when added to water in the proportion of $\frac{3}{4}$ of a gallon or less of such anti-freeze to one gallon of water reduces the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit or lower.

(5) "Sub-standard anti-freeze" means anti-freeze which must be added to water in the proportion of more than $\frac{3}{4}$ of a gallon of such anti-freeze to one gallon of water to reduce the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit.

(6) "Type P" anti-freeze means an anti-freeze containing at least 85% ethylene glycol by weight.

(7) "Type N" anti-freeze means anti-freeze which has as its principal component fermentation ethyl alcohol or natural wood distilled methyl alcohol.

(8) "Type S" anti-freeze means anti-freeze which has as its principal component synthetic ethanol, synthetic methanol, methanol-isopropyl alcohol

mixtures, or mixtures of fermentation ethyl alcohol or wood distilled methyl alcohol with any of the foregoing.

(9) "Manufacturer" means any person who produces anti-freeze.

(10) "Sale at retail" or "selling at retail" means a sale or selling to an ultimate consumer.

(11) "Retailer" means a seller making sales at retail.

(12) "Purchaser of the same class" means a purchaser of the same kind (for example, distributor, jobber, fleet owner, individual consumer) buying under the same or similar conditions of sale.

(13) "Seller of the same class" means a seller (i) performing the same function (for example, manufacturing, distributing, jobbing, retailing) (ii) of similar type (for example, gasoline stations, mail order houses, general stores, cut-rate stores) (iii) dealing in the same type of commodities, and (iv) selling to the same class of purchaser. A seller's "most closely competitive seller of the same class" shall be a seller of the same class who (a) is selling anti-freeze of the same type, and (b) is closely competitive in the sale of such anti-freeze, and (c) is located nearest to the seller.

(14) "Manufacturer's shipping point" means the point at which anti-freeze is delivered by the manufacturer to a carrier for shipment to a purchaser.

(b) Unless the context otherwise requires the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used in this Maximum Price Regulation No. 170.

§ 1412.13 Appendix A: Maximum prices for anti-freeze—(a) Standard anti-freeze, Type N and Type S, Maximum prices for standard Type N and Type S anti-freeze are established as follows:

(1) Sales by manufacturers to persons other than retailers.

	Per gallon delivered	
	Type N	Type S
(i) Tank cars	\$0.58	\$0.34
(ii) Tank truck deliveries:		
Over 500 gallons	.60	.36
Less than 500 gallons	.62	.38
(iii) Carload lots (containers included):		
(a) Containers over 35 gallons	.70	.46
(b) Containers over 5 gallons and including 35 gallons	.72	.46
(c) Containers of 1 to 5 gallons inclusive	.76	.46
(d) Containers less than 1 gallon	.80	.51

(iv) Less than carload lots: Five cents per gallon may be added to the appropriate prices established above for deliveries in carload lots, f. o. b. manufacturer's shipping point.

(2) Sales to retailers by any person.

	Per gallon delivered	
	Type N	Type S
(i) Containers over 35 gallons	\$0.87	\$0.61
(ii) Containers over 5 gallons and including 35 gallons	.90	.62
(iii) Containers of 1 and including 5 gallons	.94	.65
(iv) Containers less than 1 gallon	.99	.70

(3) Sales at retail. Delivered (including installation in automobile cooling system where buyer so requests).

	Per gallon	Type N	Type S
(i) In Quantities of 1 gallon or more	\$1.40	\$1.10	Per quart
(ii) In Quantities of less than 1 gallon	\$0.35	\$0.28	

(b) Sub-standard anti-freeze, Type N and Type S. For sales covered by subparagraphs (1), (2), and (3) of paragraph (a) of this section, the maximum price for any quantity of substandard anti-freeze of Type N or Type S, in any kind of container, shall be the maximum price, as determined under whichever one of said subparagraphs (1), (2), or (3) is applicable, for that quantity of standard anti-freeze of the same type, in the same kind of container, which would produce an anti-freeze effect equal to that produced by the quantity of substandard anti-freeze being priced. Such maximum price shall not exceed the price determined by computation under the following formula: Subtract 25% from the maximum price for a quantity of standard anti-freeze of the same type (in like containers) equal to the quantity of substandard anti-freeze being priced, and divide the result by the number of gallons of such substandard anti-freeze which must be added to 1 gallon of water to reduce the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit.

(c) Standard anti-freeze, Type P.

(1) The maximum price which any seller may charge for standard Type P anti-freeze shall be the highest price which such seller charged on a delivery of standard Type P anti-freeze in like containers in similar amounts to a purchaser of the same class during that month of the six month period ending March 31, 1942, in which such seller delivered the largest amount of Type P anti-freeze. This maximum price in the case of sales at retail shall not exceed \$2.65 per gallon on sales in quantities of 1 gallon or more or \$.70 per quart on sales in quantities of less than one gallon. Such maximum prices include installation in automobile cooling systems where the buyer so requests.

(2) If a seller cannot determine a maximum price for standard Type P anti-freeze under subparagraph (1), he shall take as his maximum price the maximum price to a purchaser of the same class as established under subparagraph (1) for the seller's most closely competitive seller of the same class for whom such a maximum price has been established under subparagraph (1).

(d) Sub-standard anti-freeze, Type P. The maximum price for any quantity of sub-standard Type P anti-freeze, in any kind of container and to any class of purchaser, shall be the maximum price for that quantity of standard Type P anti-freeze, in like containers and to the same class of purchaser, which would produce an anti-freeze effect equal to that produced by the quantity of substandard Type P anti-freeze being priced. Such maximum price shall not exceed the price determined by computation

under the following formula: subtract 25% from the maximum price (to the same class of purchasers) for a quantity of standard Type P anti-freeze (in like containers) equal to the quantity of sub-standard Type P anti-freeze being priced, and divide the result by the number of gallons of such sub-standard Type P anti-freeze which must be added to one gallon of water to reduce the freezing point of the resulting mixture to 10 degrees below zero Fahrenheit.

(e) Containers. The maximum prices established by this Maximum Price Regulation No. 170 shall not be increased by any charges for containers. Seller may, however, require the return of containers, but in such case the maximum prices which may be charged are the maximum prices set forth in paragraphs (a) to (d) above less \$.025 per gallon. When sales are made upon a container returnable basis, seller may require a reasonable deposit for the return of such containers, but such deposit must be refunded to the buyer upon the return of the container in good condition within a reasonable time. Transportation costs with respect to the return of empty containers to seller shall in all cases be borne by seller.

(f) Credit charges. The maximum prices established by this Maximum Price Regulation No. 170 shall not be increased by any charges for the extension of credit.

§ 1412.14 Effective date. This Maximum Price Regulation No. 170 (§§ 1412.1 to 1412.14) shall become effective June 30, 1942.

Issued this 25th day of June 1942.

[Docket No. C-1]

PUBLIC SERVICE COMPANY OF INDIANA

ORDER DENYING APPLICATION FOR EXEMPTION

In the matter of the application of Public Service Company of Indiana, Inc., for exemption under section 4-A of the Bituminous Coal Act of 1937.

On October 22, 1941, Public Service Company of Indiana, Inc., filed an application pursuant to section 4-A of the Bituminous Coal Act of 1937 for exemp-

tion of the coal produced at a portion of its Edwardsport Mine in District No. 11.

On June 11, 1942, counsel for the applicant and the General Counsel of the Division entered into a stipulation which recited in substance that the mining, preparation and disposition of the coal produced at the portion of the Edwardsport Mine involved in this docket are substantially identical with the mining, preparation and disposition of the coal produced at other portions of the Edwardsport Mine as to which similar applications for exemption in Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD and 1462-FD were denied by Order of the Acting Director, dated January 21, 1942, such denials to become effective upon the establishment of temporary or permanent minimum prices for the coals involved in these dockets, and in no event later than sixty (60) days from January 21, 1942. By subsequent Orders of the Acting Director, dated March 18, April 23, and May 21, 1942, the effective date of the Order of January 21, 1942, has been extended to not later than one hundred and fifty (150) days from January 21, 1942. The stipulation further provides that applicant waives a hearing of the matters involved herein and consents to the denial of its application for exemption in this docket, provided such denial shall become effective as soon as the Order, dated January 21, 1942, in Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD and 1462-FD, as heretofore or hereafter modified or amended, becomes effective and not prior thereto.

Now, therefore, it is ordered, That pursuant to the aforesaid stipulation of June 11, 1942, the application for exemption heretofore filed by Public Service Company of Indiana, Inc., in Docket No. C-1 be, and it hereby is, denied, effective as soon as the Order dated January 21, 1942, in Dockets Nos. 506-FD, 524-FD, 606-FD, 1163-FD, 1188-FD, 1323-FD, and 1462-FD, as heretofore or hereafter modified or amended, becomes effective and not prior thereto.

DISTRICT BOARD 2

RELIEF GRANTED, ETC.

In the matter of the petition of District Board No. 2 for the establishment of price classifications and minimum prices for the coals of certain mines.

In the matter of the petition of District Board No. 2 for the establishment of price classifications and minimum prices for the coals of D. M. & H. Coal Company (W. B. Davis), Harry Fekula and Stanley Sutter.

Memorandum opinion and order severing Docket No. A-1472 Part II from Docket No. A-1472 and granting in part temporary relief in Docket No. A-1472 part II and notice of and order for hearing in Docket No. A-1472 Part II.

The original petition in the above-entitled matters requests the issuance of orders establishing temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 2. As indicated in an Order issued in Docket No. A-1472, a reasonable showing of necessity has been made for the granting of relief prayed for, except as to the establishment of price classifications and minimum prices for the coals of Mine Index No. 270 of D. M. & H. Coal Company (W. B. Davis), Mine Index No. 1777 of Harry Fekula, or Mine Index No. 2107 of Stanley Sutter for rail shipments from Pricedale, Pennsylvania on the Monessen Southwestern Railway and from Somers, Pennsylvania on the Pittsburgh and Lake Erie Railroad.

The original petition proposes price classifications and minimum prices for the coals of these mines for rail shipment from Pricedale, Pennsylvania, on Monessen Southwestern Railway, and from Somers, Pennsylvania, on the Pittsburgh and Lake Erie Railroad. The Division has no record of Monessen Southwestern Railway as a common carrier. A hearing is necessary to determine whether a shipping point may properly be established from Pricedale, Pennsylvania on Monessen Southwestern Railway.

Now, therefore, it is ordered, That the portion of Docket No. A-1472 relating to the coals of Mine Index No. 270 of D. M. & H. Coal Company (W. B. Davis), Mine Index No. 1777 of Harry Fekula, and Mine Index No. 2107 of Stanley Sutter for rail shipments from Pricedale, Pennsylvania, on Monessen Southwestern Railway and from Somers, Pennsylvania, on Pittsburgh and Lake Erie Railroad.

Index No. 2107 of Stanley Sutter for rail shipment from Pricedale, Pennsylvania, on Monessen Southwestern Railway, and from Somers, Pennsylvania, on Pittsburgh and Lake Erie Railroad be, and it hereby is, severed from the remainder of Docket No. A-1472 and designated as Docket No. A-1472 Part II.

It is further ordered, That a hearing in Docket No. A-1472 Part II under the applicable provisions of the Bituminous Coal Act of 1937 and the rules of the Division be held on July 23, 1942, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room where such hearing will be held.

It is further ordered, That Floyd McGown or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, take evidence, to continue said hearing from time to time, and to prepare and submit to the undersigned proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before July 18, 1942.

All persons are hereby notified that the hearing in Docket No. A-1472 Part II and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 2 for the establishment of price classifications and minimum prices for the coals of Mine Index No. 270 of D. M. & H. Coal Company (W. B. Davis), Mine Index No. 1777 of Harry Fekula, and Mine Index No. 2107 of Stanley Sutter for rail shipments from Pricedale, Pennsylvania, on Monessen Southwestern Railway and from Somers, Pennsylvania, on Pittsburgh and Lake Erie Railroad.

It is further ordered, This pending final disposition of Docket No. A-1472 Part II, temporary relief be, and it hereby is, granted as follows: Commencing forthwith Price Schedule No. 1 for Dis-

FEDERAL REGISTER, Friday, June 26, 1942

trict No. 2, For All Shipments Except Truck, is supplemented to include the price classifications and minimum prices set forth in the Schedule marked "Supplement R," annexed hereto and made a part hereof.
